

Sexual Wellness Centers of Texas

SEXUAL HEALTH & WELLNESS

Only Patented Cure in the World for Erectile Dysfunction Leading Authority on Sexual Health & Wellness

Specialty | As a medical practice dedicated to sexual health, Sexual Wellness Centers of Texas (SWC) proudly serves patients with patient-focused care and cutting-edge techniques and technologies. SWC was founded with one mission—to rejuvenate your body, boost your energy, increase self-confidence, and help you enjoy your sexuality even in advanced years. Their team is committed to having a holistic approach to caring for, managing, and treating your sexual health. With a commitment to innovation and effective treatment options, SWC is proud to introduce the REGENmax protocol—offering a non-invasive and highly successful cure for ED (erectile dysfunction).

Why Choose SWC | Over the last 15 years and a significant investment in both scientific and clinical studies, a team of SWC MDs and PhDs diligently researched and optimized the REGENmax protocol. Having successfully treated countless patients at their Frisco and Colleyville, Texas locations for years, SWC conducted a formal clinical study of over 250 patients and employed the REGENmax protocol. Results showed 243 patients had reversed their ED after a one-year follow-up, an astounding 97.2% success rate.

REGENmax Protocol | SWC proudly announces the first and only worldwide US patent for the cure of Erectile Dysfunction (ED) and global registered trademark of the REGENmax® protocol. This revolutionary protocol completely reverses ED. You heard that right—it's a cure. It is important to understand that this is not a pill. It's not a temporary fix. It's a painless patent protected procedure with a 97% success rate and quick results.

Life Changing | About 30 million men in the U.S. alone today are suffering from this common issue... they share feelings of hopelessness, shame, worthlessness to themselves and for their partners. ED treatment benefits include a renewed sense of confidence and intimacy for individuals facing challenges with sexual health. Seeking ED treatment not only addresses physical aspects, but also contributes to overall emotional and relational well-being, thus promoting a more fulfilling and satisfying lifestyle.

Patent Protected Procedure | Groundbreaking protocol in a 250-patient study demonstrated effectiveness in eradicating ED—providing a treatment protocol and medical solution for the over 56 million worldwide suffering unnecessarily from this debilitating condition. ED significantly impacts quality of life and self-esteem. Until now, available treatments often relied on pills or surgery, resulting in inconsistent, costly, and temporary results. The REGENmax protocol has solved the root causes of ED through a multi-faceted approach—with absolutely no need for pills or surgical intervention.

Successful Solution | This innovative approach promises to significantly deliver treatment success for ED patients of practice owners, medical providers and clinicians. By integrating REGENmax into their existing protocols, medical practices can offer patients a more cost-effective and non-invasive solution for addressing the root causes of erectile dysfunction.

What You Can Expect | A physical exam and a blood analysis will be performed during your consultation to help the team determine what may be the underlying cause of your sexual dysfunction. Your specific treatment plan will be tailored to meet your unique needs. Some of the available treatments that may be included in your treatment plan include REGENmax for both men and women, HEShot or SHEShot to enhance sexual performance, hormone replacement therapy, ED laser, REGENwave, and more. The goal at SWC is to optimize your personal hormonal levels and this is different for every body.

Personalized Plans | At Sexual Wellness Centers of Texas, they understand that what works for one person may not work for another, which is why their team offers multiple treatment options. Personalized treatment plans include the services that will best meet your unique needs. To schedule a consultation and learn more about how they can craft a customized plan for you, contact them today. It's time to live fully and feel like yourself again!
