CEO Dr. Jeff Nuziard is changing
the world with his patent protected
procedure that cures ED.

Live Fully LOVE AGAIN

(and again and again...
you get the idea)

Around 30 million men in the United States alone today are suffering from a common issue... they share feelings of hopelessness, shame, worthlessness to themselves and for their partners. We're talking about ED (*erectile dysfunction*). This is no laughing matter. If your life or the life of someone you love has been disrupted by this sexual issue, keep reading. It'll be life-changing. We want to introduce to you Dr. Jeff Nuziard, CEO of Sexual Welless Centers of Texas right here in Colleyville. Dr. Nuziard woke up and found himself as a healthy 40-year-old man who could not perform. He was an emotional wreck and felt like he should surrender his man card. He refused to accept that this was how it was going to be for the rest of his life. He started a personal quest – not just for answers, but for a cure. This journey led him to develop the REGENmax Protocol.

It's important to understand that this is not a pill. It's not a temporary fix. It's a painless patent protected procedure that has a 97% success rate with quick results. "Our Creator is really smart – He created our bodies to regenerate themselves... and I discovered a way with laser technology and shockwave therapy through several modalities to do that for ED. It's a treatment process called REGENmax and it completely reverses erectile dysfunction," proclaims Dr. Nuziard. He and his team at Sexual Welless Centers of Texas believe you're never too old for a fulfilling sex life. They understand how sexual issues can feel like a loss of identity, and that's exactly why they're ready whenever you are to help you testify, "I'm back!"

(continued on the next page)

Sexual Wellness Centers of Texas is a leading authority in sexual health, dedicated to improving the lives of individuals affected by sexual dysfunction. With a strong commitment to innovation and effective treatment options, they are proud to introduce the REGENmax protocol – offering a non-invasive and highly successful cure for ED (erectile dysfunction).

Sexual Wellness Centers of Texas (SWC) proudly announces its US patent number 11,806,301 for the world’s first Erectile Dysfunction (ED) global trademark patent of its REGENmax protocol. This revolutionary treatment completely reverses ED. You heard right—it’s a cure.

Groundbreaking protocol in a 250-patient study demonstrated 97% effectiveness in eradicating ED—finally providing a treatment protocol and medical solution for the over 56 million worldwide suffering unnecessarily from this debilitating male condition. ED significantly impacts their quality of life and self-esteem. Until now, available treatments often relied on pills or surgery, resulting in inconsistent, costly, and temporary results. All of the money spent on research and development has been without significant and permanent reversible results. Even the most recent FDA-approved product amounts to no more than a 60% success rate compared to REGENmax’s 97% ED reversal. The REGENmax protocol has solved the root causes of ED through a multi-faceted approach—with absolutely no need for pills or surgical intervention.

Over the last 15 years and a significant investment in both scientific and clinical studies, a team of SWC MDs and PhDs have diligently researched and optimized the REGENmax protocol. Having successfully treated countless patients at their Frisco and Colleyville, Texas locations for years, SWC conducted a formal clinical study of over 250 patients and employed the REGENmax protocol. Results showed that 243 patients had reversed their ED after a one-year follow-up, an astounding 97.2% success rate. SWC has since begun commercializing its patented ED protocol making it the first to offer REGENmax in its clinics. This innovative approach promises to significantly deliver treatment success for ED patients of practice owners, medical providers and clinicians. By integrating REGENmax into their existing protocols, medical practices can now offer patients a more cost-effective and non-invasive solution for addressing the root causes of erectile dysfunction.

At Sexual Wellness Centers of Texas, they understand that what works for one person may not work for another, which is why their team offers multiple treatment options. A physical exam and a blood analysis will be performed during your consultation to help the team determine what may be the underlying cause of your ED. Your specific treatment plan will be tailored to meet your unique needs. Some of the available treatments that may be included in your treatment plan include HEShot, hormone replacement therapy, ED laser, REGENwave, and more. Their goal is to optimize your testosterone levels and this is different for every body.

The entire human body is regenerative and “sexual wellness” is not just a specific treatment. Sexual wellness is a doctrine of regenerative medicine encompassing all areas of the body’s sexual function. SWC will stay committed to total restoration and regeneration of each individual’s sexual function performed with integrity, dignity, discretion and professionalism. ED treatment benefits include a renewed sense of confidence and intimacy for the individuals facing challenges with sexual health. Seeking ED treatment not only addresses physical aspects, but also contributes to overall emotional and relational well-being, thus promoting a more fulfilling and satisfying lifestyle.

Sexual Wellness Centers is a state-of-the-art medical clinic dedicated to sexual health. Their mission is to rejuvenate your body, boost your confidence, amplify your energy, and help you enjoy sexuality as late in life as you desire. They proudly serve each of their patients with their own individualized treatment plan. At Sexual Wellness Centers, they believe in taking a holistic approach to improving your sexual well-being. Your personalized treatment plan may include REGENmax for both men and women, HEShot or SHEShot to enhance sexual performance, or other services to meet your unique needs. To schedule a consultation and learn more about how they can craft a customized plan for you, contact them today. It’s time to live fully and feel like yourself again!

ACTUAL PATIENT TESTIMONIALS

“After going here, I am convinced anyone could benefit from their knowledge. Not pushy at all, very informative and welcoming. I had a lot of questions and they took the time to answer them fully. If you’re even considering this, don’t walk—run to this place! Professional, efficient, discreet, and easy in-and-out. And the results... Wow! My wife and I are both very pleased. I’ll be back for sure and now my wife is becoming a patient, too. Yes! of you guys that have suffered from ED, to make that investment. It’s worth it. Thanks again to Jeff and his staff. They’re my heroes.”

“Sexual Wellness Centers of Texas is a Godsend. I get my hormone pellets, laser treatments and most importantly—honest conversation and guidance from knowledgeable and forward-thinking specialists. Age is literally just a number (if that). They’ve helped me to feel great while living the best part of my life. There are few things we can control and thanks to them I’ve regained and continue to maintain my vitality and zest for life.”

“I went to SWC of Texas and met Jeff and his staff... they made me feel comfortable about my ED issues. I got the complete package and I must say, they did a great job getting me on track and at 59—it’s the best I’ve felt. I perform like I’m in my twenties... It’s worth it!”

Sexual Wellness Centers of Texas is proud to offer a wide range of treatment techniques, utilizing the latest technologies to help you have a healthy, active sex life. Treatments just like their exclusive REGENmax® can help improve your performance and make you feel like you are younger self again.
